

**STANISLAUS COUNTY FOCUS ON PREVENTION  
MOVEMENT TO STRENGTHEN FAMILIES**

**Aggregate Summary of Data from August 17 Action Council Session  
Strategy Worksheets**

1. Number of groups with representatives from the following sectors

N=10

2. Population: Individuals who are, or have been, engaged in the criminal and juvenile justice systems

a. What our sector does well for this population already:

N=10

- |   |  |
|---|--|
| <p>1) Chaplaincy program at JH.<br/>Community re-entry.<br/>Support services (chemical, spiritual, life skills, education).<br/>Support - Transition - Re-entry</p> <p>2) Do well for offering services, especially high risk offenders</p> | <p>3) Health access is available through community classes. Coverage is available through medi-cal and county health. Based upon income, most people coming out of incarceration will qualify for medi-cal coverage.</p> <p>4) Mental health counseling (youth)<br/>Outreach (medi-cal enrollment)</p> |
|---|--|

- Counseling/coaching: Family counseling, wraparound programs, mindful transformation, emotional intelligence, social skills, belief system, efficacy, goal setting, achievement.
- 5) Probation assessment identifies needs and connects those who are willing for services. Sheriff provides numerous in-custody programs.
  - 6) Public defender: Providing vigorous defense for clients charged with crimes. Child support: Very focused interaction of caseworkers who provide inmates with child support services. Workforce: Provide training and resources for those on supervision and just released. Sheriff: Provide safe facility with programming.
  - 7) SCF funds nonprofits that provide direct services to this population.
  - 8) STAY - visiting jail is offering rehab services - not mandated. HBO (Healthy Birth Outcomes).
  - 9) Support services: Behavioral health (addiction, mental health, education, life skills, community re-entry program, spirituality, and job readiness/career counseling)
  - 10) Visitations to individuals in jail by local church members. Chaplaincy program. 85-90 chaplains engaged with 1 on 1 group studies. Recovery group "beyond addiction" in churches. Work closely with "host" (NP), provide counseling.

**b. What our sector could begin doing to better support this population going forward:** N=10

- 1) Child support: Identify those incarcerated that can benefit from services—i.e., booking or at time of sentencing. Sheriff: Increase desire in inmates to get into programming (incentives?) and continue skills classes post incarceration. Public defender: Increase collaborative efforts to get clients to services. Social workers?
- 2) Connect with employers to help transition those who have been incarcerated. We need support and cooperation—i.e., business sector. Be more proactive in intervention, culturally aware, build relations. Hear this population of what we can do better. Provide more services in rural areas.
- 3) Identify incarcerated status. Proactively identify health or SA/BHS concerns through courts, DUI. Be more high touch to assist with medical enrollment. Educate law enforcement and probation regarding health options and navigating the system. Work with trusted CBOs that are working with the population to establish health ed programs. Identify options to do warm handoffs between jails and prisons, and providers
- 4) and health plans. Promote BHS to those leaving system.
- 4) Make proactive - communicative. More prevention - intervention - break the cycle. More collaboration - active - action. Talk about the numbers. Cultural - ethnic. Rural locations.
- 5) Misdemeanor/low-level offenders are not assessed and referred to services. Prop 47 large population. Develop a frequent flier/top offender list for those cited out, where resources can be coordinated and offered. Find better ways to motivate/incentivize those who need to change whether in-custody or out.
- 6) Need more capacity, more resources for counseling for non-medi-cal, undocumented, uninsured populations. Transportation: access to services/ barriers.
- 7) Project rebound - offer college/higher ed to offenders.
- 8) Provide more general operating support. Direct funding towards outcomes, rather than individual programs - make application process easier, use our evaluation process to measure outcomes aligned with FOP.

- |   |  |
|---|--|
| <p>9) Reach out to more incarcerated individuals.<br/>Reach out/refer more with those that are mentally ill.<br/>Create transitional homes. Help with life skills. Provide mentoring, computer. Use volunteers at church.<br/>Neighbors could be mentors.</p> | <p>10) Showing that we care for them<br/>Connect them to what motivates them<br/>Getting the data and making decisions based on the data<br/>System is based on reactive not a preventive model.</p> |

|---|---|
| <p>1) Better communication and collaboration - information that is accessible.<br/>Mental health treatment for children - inpatient.<br/>Parenting classes in rural areas.</p> <p>2) Continue to educate.</p> <p>3) Similar response to previous question, plus, without the identified patient/person involved in justice system, some families cannot get counseling (don't meet eligibility criteria, don't want to [participate]).</p> <p>4) Education/workforce community - Opportunity Stanislaus, SCOE VOH/ Comeback</p> | <p>Align funders around shared outcomes<br/>Collaborate on funding opportunities that integrates services; funds MSW's in schools to case manage.<br/>Actual employers - change policies to become more flexible around hiring this population; develop programs to assist target population.<br/>Where is the business community?</p> <p>5) Group session for support to families<br/>"loss," look to partner with support groups.<br/>Discussion at Catalyst about parenting and topic.<br/>Organizing neighborhood associations to</p> |
|---|---|

- educate neighbors.  
Encourage NNOs - be aware of our neighbors.
- 6) Not a lot of support programs for the families of the offender. More focus on the family - prevention.  
Evidence based practices for identifying a family in need holistically - system of care.
- 7) Planning for family reintegration that should begin in a year through REACT S.O.  
Need better way to identify family members of defendants.  
Data warehouse through ICJIS (we think)
- 8) Provide family reunification services and family counseling in cases where it is in best interest of client.  
Public defender: Provide social work services to family who have clients with mental health issues or substance abuse issues.
- 9) Reaffirm BHS services.  
Integrate HG or health navigation programs into services already targeting families of incarcerated.  
Specialized training for case managers or staff working with families of incarcerated.  
Helping families overcome barriers.

4. Population: Families directly impacted by individuals who are, or have been, engaged in the criminal and juvenile justice systems

a. What our sector does well for this population already: N=7

- 1) Collaboration - networking  
"Face to face," "Should to shoulder"  
F.O.C.U.S.  
Education and awareness - community-wide.  
Utilizing victim services - courts.
- 2) Family Justice Center  
Victims Services Unit has doubled in size.
- 3) To be on the front line to discover families.  
When we are aware, provide grief support and emotional stability.
- 4) Provide resources
- 5) Similar response to previous question.
- 6) Support. Face to face. Shoulder to shoulder. More awareness. Victim services.
- 7) Victims of crime/criminal activity.  
SFJC covers victim services for victims/families of DV, SA, HT, child abuse, elder abuse. Polyvictims. Counseling services for victims with trauma, MH diagnosis.

b. What our sector could begin doing to better support this population going forward: N=6

- 1) Continue
- 2) Help partner with Jessica's House/ counseling services.  
Create awareness of services for community help.
- 3) Learning more
- 4) More services for victims of all crimes, including trauma-informed services.  
Some victims may become offenders without counseling and dealing with early trauma (prevention, ACE scores).
- 5) Providing more support, but funding is limited.
- 6) Similar response to previous question.

5. Our three best ideas for improving support for one or more of these sub-populations N=9

Population • Idea to improve support		Why this is a good idea
1)	"Use the app" 211 referral.	Efficiency, low cost.
2)	Align funders around shared vision/outcomes— i.e. shared fund that we grant make out of.	More efficient, increases funding amounts, makes evaluation easier, more focused efforts

Population • Idea to improve support		Why this is a good idea
3)	Bring populations to the table. More networking like today.	
4)	Continue networking and subgroups can meet regularly.	Builds relationships to support and provides services.
5)	Data warehouse based out of ICJIS (we think).	Data will be essential for diagnosis/identifying, then monitoring and outcomes.
6)	Educate parents.	
7)	Increase desire in those incarcerated to get them into programming and continue skills classes once released into community. This can be done through incentives to inmates and/or collaboration with other departments and provide social services.	
8)	Invest in infrastructure to coordinate services for all populations (capacity building).	Ensure that programs are more effective and CBOs communicate, share data, don't duplicate.
9)	Opportunity to develop more structured programs around financial literacy.	Helps family stability.
10)	Outreach.	Linking to resources.
11)	Populate - children in schools - embed MSW to provide case management at high need schools.	Schools are easily accessible and interventions are more immediate and direct. Student performance connects to trauma in home.
12)	Population #1 Find ways to incentivize/motivate people for life change.	
13)	Population #2 REACT Center family reintegration program.	Strengthen families.
14)	Population: Families impacted by crime. Similar response to previous question.	
15)	Population: Families of offenders. Similar response to previous question.	
16)	Population: Families. Find/create more support groups, specially for family.	Help people share, open up, realize they are not the only family.
17)	Population: Individuals. Transitional housing for individuals.	Hands on - security for individuals held accountable - build success.
18)	Population: Individuals. Try to reach out/ advertise in jail about faith-based services. Wholesome listening/counseling.	Reach more than 15% of our inmates in jail to faith-based groups.
19)	Population: Offenders. Build capacity through engagement, prevention, intervention. Providers collaborating. Leveraging funding for this subset.	Collaborating on funding to bring more resources to community.
20)	Prevention.	Knowledge empowers to make better choices.
21)	Project Rebound - incarcerated individuals go to college.	

Population · Idea to improve support		Why this is a good idea
22)	Promote BHS and benefits to individuals leaving incarceration and educate trusted referral sources.	Continuity of care, post incarceration, BHS needs.
23)	Reaffirm BHS benefits; coverage options, and educate about trusted referral sources.	Overall family health - children, spouse, family dynamics.
24)	The app about available resources (Catalyst Guy).	Low cost, effective, updated easily. immediate access - language. Bring populations to the table. More networking like today.
25)	Walk “side by side”	

**Sectors represented: Education • Faith • Non-profit organizations (1 group)**

1. Population: Individuals who are, or have been, engaged in the criminal and juvenile justice systems

a. What our sector does well for this population already:

Support services: Behavioral health (addiction, mental health, education, life skills, community re-entry program, spirituality, and job readiness/career counseling)

b. What our sector could begin doing to better support this population going forward:

Connect with employers to help transition those who have been incarcerated. We need support and cooperation—i.e., business sector.

Be more proactive in intervention, culturally aware, build relations.

Hear this population of what we can do better.

Provide more services in rural areas.

2. Population: Families of individuals who are, or have been, engaged in the criminal and juvenile justice systems

a. What our sector does well for this population already:

Support services. Similar response to previous question.

b. What our sector could begin doing to better support this population going forward:

Better communication and collaboration - information that is accessible.

Mental health treatment for children - inpatient.

Parenting classes in rural areas.

3. Population: Families directly impacted by individuals who are, or have been, engaged in the criminal and juvenile justice systems

a. What our sector does well for this population already:

Collaboration - networking

“Face to face,” “Should to shoulder”

F.O.C.U.S.

Education and awareness - community-wide.

Utilizing victim services - courts.

b. What our sector could begin doing to better support this population going forward:

*No response mentioned*

4. Our three best ideas for improving support for one or more of these sub-populations

Population • Idea to improve support		Why this is a good idea
1)	Continue networking and subgroups can meet regularly.	Builds relationships to support and provides services.
2)	“Use the app” 211 referral.	Efficiency, low cost.
3)	Walk “side by side”	

**Sector represented: Education (1 group)**

1. Population: Individuals who are, or have been, engaged in the criminal and juvenile justice systems

- a. What our sector does well for this population already:  
STAY - visiting jail is offering rehab services - not mandated. HBO (Healthy Birth Outcomes).
- b. What our sector could begin doing to better support this population going forward:  
Project rebound - offer college/higher ed to offenders.

2. Population: Families of individuals who are, or have been, engaged in the criminal and juvenile justice systems

- a. What our sector does well for this population already:  
Latino literacy
- b. What our sector could begin doing to better support this population going forward:  
Continue to educate.

3. Population: Families directly impacted by individuals who are, or have been, engaged in the criminal and juvenile justice systems

- a. What our sector does well for this population already:  
Provide resources
- b. What our sector could begin doing to better support this population going forward:  
Continue

4. Our three best ideas for improving support for one or more of these sub-populations

Population • Idea to improve support		Why this is a good idea
1)	Outreach.	Linking to resources.
2)	Educate parents.	
3)	Prevention.	Knowledge empowers to make better choices.
4)	Project Rebound - incarcerated individuals go to college.	

**Sectors represented: Faith • Neighborhoods/Community (1 group)**

**1. Population: Individuals who are, or have been, engaged in the criminal and juvenile justice systems**

**a. What our sector does well for this population already:**

Visitations to individuals in jail by local church members.  
 Chaplaincy program. 85-90 chaplains engaged with 1 on 1 group studies.  
 Recovery group “beyond addiction” in churches.  
 Work closely with "host" (NP), provide counseling.

**b. What our sector could begin doing to better support this population going forward:**

Reach out to more incarcerated individuals.  
 Reach out/refer more with those that are mentally ill.  
 Create transitional homes. Help with life skills. Provide mentoring, computer. Use volunteers at church.  
 Neighbors could be mentors.

**2. Population: Families of individuals who are, or have been, engaged in the criminal and juvenile justice systems**

**a. What our sector does well for this population already:**

“Angel Tree” gifts for the incarcerated children, receive on behalf of parent.  
 Counseling with families/visiting family.  
 Furniture, clothing, food for families resettling.

**b. What our sector could begin doing to better support this population going forward:**

Group session for support to families “loss,” look to partner with support groups.  
 Discussion at Catalyst about parenting and topic.  
 Organizing neighborhood associations to educate neighbors.  
 Encourage NNOs - be aware of our neighbors.

## Sector represented: Local government (3 groups)

### 1. Population: Individuals who are, or have been, engaged in the criminal and juvenile justice systems

#### a. What our sector does well for this population already:

- 1) Do well for offering services, especially high risk offenders
- 2) Health access is available through community classes. Coverage is available through medi-cal and county health. Based upon income, most people coming out of incarceration will qualify for medi-cal coverage.
- 3) Public defender: Providing vigorous defense for clients charged with crimes.  
Child support: Very focused interaction of caseworkers who provide inmates with child support services.  
Workforce: Provide training and resources for those on supervision and just released.  
Sheriff: Provide safe facility with programming.

#### b. What our sector could begin doing to better support this population going forward:

- 1) Child support: Identify those incarcerated that can benefit from services—i.e., booking or at time of sentencing.  
Sheriff: Increase desire in inmates to get into programming (incentives?) and continue skills classes post incarceration.  
Public defender: Increase collaborative efforts to get clients to services. Social workers?
- 2) Identify incarcerated status.  
Proactively identify health or SA/BHS concerns through courts, DUI.  
Be more high touch to assist with medi-cal enrollment.  
Educate law enforcement and probation regarding health options and navigating the system.  
Work with trusted CBOs that are working with the population to establish health ed programs.  
Identify options to do warm handoffs between jails and prisons, and providers and health plans.  
Promote BHS to those leaving system.
- 3) Showing that we care for them  
Connect them to what motivates them  
Getting the data and making decisions based on the data  
System is based on reactive not a preventive model.

### 2. Population: Families of individuals who are, or have been, engaged in the criminal and juvenile justice systems

#### a. What our sector does well for this population already:

- 1) Focus on Children under Stress program by District Attorney  
Provide services after a crime  
Family Resource Centers offer support
- 2) Friends Outside provides communication services with family and clients  
Public defender: Provide support to families whose family member is facing charges.
- 3) Similar response to previous question.  
Philanthropic support for general programs serving vulnerable populations which may serve families of incarcerated.

#### b. What our sector could begin doing to better support this population going forward:

- 1) Not a lot of support programs for the families of the offender. More focus on the family - prevention.  
Evidence based practices for identifying a family in need holistically - system of care.

2) Provide family reunification services and family counseling in cases where it is in best interest of client.

Public defender: Provide social work services to family who have clients with mental health issues or substance abuse issues.

3) Reaffirm BHS services.

Integrate HG or health navigation programs into services already targeting families of incarcerated.

Specialized training for case managers or staff working with families of incarcerated.  
Helping families overcome barriers.

3. Population: Families directly impacted by individuals who are, or have been, engaged in the criminal and juvenile justice systems

a. What our sector does well for this population already:

*No response mentioned*

b. What our sector could begin doing to better support this population going forward:

*No response mentioned*

4. Our three best ideas for improving support for one or more of these sub-populations

Population • Idea to improve support		Why this is a good idea
1)	Increase desire in those incarcerated to get them into programming and continue skills classes once released into community. This can be done through incentives to inmates and/or collaboration with other departments and provide social services.	
2)	Promote BHS and benefits to individuals leaving incarceration and educate trusted referral sources.	Continuity of care, post incarceration, BHS needs.
3)	Reaffirm BHS benefits; coverage options, and educate about trusted referral sources.	Overall family health - children, spouse, family dynamics.

**Sectors represented: Law enforcement • Local government (1 group)**

**1. Population: Individuals who are, or have been, engaged in the criminal and juvenile justice systems**

**a. What our sector does well for this population already:**

Probation assessment identifies needs and connects those who are willing for services. Sheriff provides numerous in-custody programs.

**b. What our sector could begin doing to better support this population going forward:**

Misdemeanor/low-level offenders are not assessed and referred to services. Prop 47 large population.

Develop a frequent flier/top offender list for those cited out, where resources can be coordinated and offered.

Find better ways to motivate/incentivize those who need to change whether in-custody or out.

**2. Population: Families of individuals who are, or have been, engaged in the criminal and juvenile justice systems**

**a. What our sector does well for this population already:**

There are voluntary parenting classes.

Initial provision of resources in Domestic Violence cases.

Family Justice Center clients are provided services - excellent partnership.

**b. What our sector could begin doing to better support this population going forward:**

Planning for family reintegration that should begin in a year through REACT S.O.

Need better way to identify family members of defendants.

Data warehouse through ICJIS (we think)

**3. Population: Families directly impacted by individuals who are, or have been, engaged in the criminal and juvenile justice systems**

**a. What our sector does well for this population already:**

Family Justice Center

Victims Services Unit has doubled in size.

**b. What our sector could begin doing to better support this population going forward:**

Providing more support, but funding is limited.

**4. Our three best ideas for improving support for one or more of these sub-populations**

Population • Idea to improve support		Why this is a good idea
1)	Population #1 Find ways to incentivize/motivate people for life change.	
2)	Population #2 REACT Center family reintegration program.	Strengthen families.
3)	Data warehouse based out of ICJIS (we think).	Data will be essential for diagnosis/identifying, then monitoring and outcomes.

## Sector represented: Non-profit organizations (2 groups)

1. Population: Individuals who are, or have been, engaged in the criminal and juvenile justice systems
  - a. What our sector does well for this population already:
    - 1) Chaplaincy program at JH.  
Community re-entry.  
Support services (chemical, spiritual, life skills, education).  
Support - Transition - Re-entry
    - 2) Mental health counseling (youth)  
Outreach (medi-cal enrollment)  
Counseling/coaching: Family counseling, wraparound programs, mindful transformation, emotional intelligence, social skills, belief system, efficacy, goal setting, achievement.
  - b. What our sector could begin doing to better support this population going forward:
    - 1) Make proactive - communicative.  
More prevention - intervention - break the cycle  
More collaboration - active - action  
Talk about the numbers  
Cultural - ethnic  
Rural locations.
    - 2) Need more capacity, more resources for counseling for non-medi-cal, undocumented, uninsured populations. Transportation: access to services/barriers.
2. Population: Families of individuals who are, or have been, engaged in the criminal and juvenile justice systems
  - a. What our sector does well for this population already:
    - 1) Family counseling (Aspiranet, WMKKNc, Cambridge Academics). Similar response to previous question.
    - 2) Support services
  - b. What our sector could begin doing to better support this population going forward:
    - 1) Similar response to previous question, plus, without the identified patient/person involved in justice system, some families cannot get counseling (don't meet eligibility criteria, don't want to [participate]).
3. Population: Families directly impacted by individuals who are, or have been, engaged in the criminal and juvenile justice systems
  - a. What our sector does well for this population already:
    - 1) Support. Face to face. Shoulder to shoulder. More awareness. Victim services.
    - 2) Victims of crime/criminal activity.  
SFJC covers victim services for victims/families of DV, SA, HT, child abuse, elder abuse.  
Polyvictims. Counseling services for victims with trauma, MH diagnosis.
  - b. What our sector could begin doing to better support this population going forward:
    - 1) Learning more
    - 2) More services for victims of all crimes, including trauma-informed services. Some victims may become offenders without counseling and dealing with early trauma (prevention, ACE scores).

4. Our three best ideas for improving support for one or more of these sub-populations

Population • Idea to improve support		Why this is a good idea
1)	Population: Offenders. Build capacity through engagement, prevention, intervention. Providers collaborating. Leveraging funding for this subset.	Collaborating on funding to bring more resources to community.
2)	Population: Families of offenders. Similar response to previous question.	
3)	Population: Families impacted by crime. Similar response to previous question.	
4)	Bring populations to the table. More networking like today.	
5)	The app about available resources (Catalyst Guy).	Low cost, effective, updated easily. immediate access - language. Bring populations to the table. More networking like today.

**Sector represented: Philanthropy (1 group)**

5. Population: Individuals who are, or have been, engaged in the criminal and juvenile justice systems

- a. What our sector does well for this population already:  
SCF funds nonprofits that provide direct services to this population.
- b. What our sector could begin doing to better support this population going forward:  
Provide more general operating support.  
Direct funding towards outcomes, rather than individual programs - make application process easier, use our evaluation process to measure outcomes aligned with FOP.

6. Population: Families of individuals who are, or have been, engaged in the criminal and juvenile justice systems

- a. What our sector does well for this population already:  
Direct program/initiative support - financial education and training.  
SCF invests in education initiatives that provides support for high poverty schools.  
United Way - Court Referral Program support, 211, Grad Coach  
Self-help - financing for childcare services/credit for individual parents
- b. What our sector could begin doing to better support this population going forward:  
Education/workforce community - Opportunity Stanislaus, SCOE VOH/Comeback  
Align funders around shared outcomes  
Collaborate on funding opportunities that integrates services; funds MSW's in schools to case manage.  
Actual employers - change policies to become more flexible around hiring this population; develop programs to assist target population.  
Where is the business community?

7. Population: Families directly impacted by individuals who are, or have been, engaged in the criminal and juvenile justice systems

- a. What our sector does well for this population already:  
Similar response to previous question.
- b. What our sector could begin doing to better support this population going forward:  
Similar response to previous question.

8. Our three best ideas for improving support for one or more of these sub-populations

Population • Idea to improve support		Why this is a good idea
1)	Align funders around shared vision/outcomes— i.e. shared fund that we grant make out of.	More efficient, increases funding amounts, makes evaluation easier, more focused efforts
2)	Invest in infrastructure to coordinate services for all populations (capacity building).	Ensure that programs are more effective and CBOs communicate, share data, don't duplicate.

Population · Idea to improve support		Why this is a good idea
3)	Opportunity to develop more structured programs around financial literacy.	Helps family stability.
4)	Populate - children in schools - embed MSW to provide case management at high need schools.	Schools are easily accessible and interventions are more immediate and direct. Student performance connects to trauma in home.
